

Butterfly Symmetry

Jerry Cesario

Make a New Picture. (File -> New)

Select the **Wacky Brush** tool and options below.

1. **Draw** a picture of a butterfly.
2. **Use** the WACKY PENCIL tool to close any openings on the butterfly and to add any detail.
3. **Select** the color Palette tool, or select patterns from the Option menu.
4. **Pour** paint into different parts of the butterfly. Use the COLOR PALETTE tool to choose different colors.(Place the tip of the paint in the area you want to color and press the mouse button.)
5. Remember to add the same color and designs to both sides.

Use the Wacky Brush to create other symmetrical pictures.
