

The Kid Pix Paint Zone

When you open Kid Pix Deluxe 3, you see the Paint Zone:

Study the location of all the tools. You will use all of them!

1. **Click the Drawing Tool button.**

To draw:

1. Click the **Drawing Tools** button.

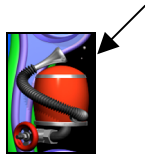

The diagram shows the Drawing Tools palette with the following labels:

- Chalk (soft/fuzzy)
- Marker (see-through)
- Freestyle Line
- Straight Line
- Box Outline
- Circle Outline
- Shape Outline
- Pencil (solid)
- Crayon (hard/fuzzy)
- Line Thickness
- Curved Line
- Filled Box
- Filled Circle
- Filled Shape

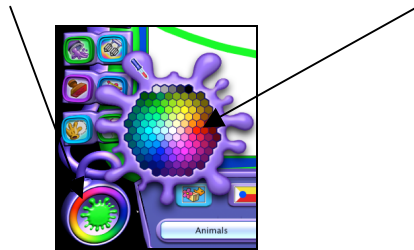

2. Pick a tool.
3. Select a thickness of the line.
4. Select a shape.
5. Click in the drawing area and, holding down the mouse button, move the mouse around to draw.

Cont...

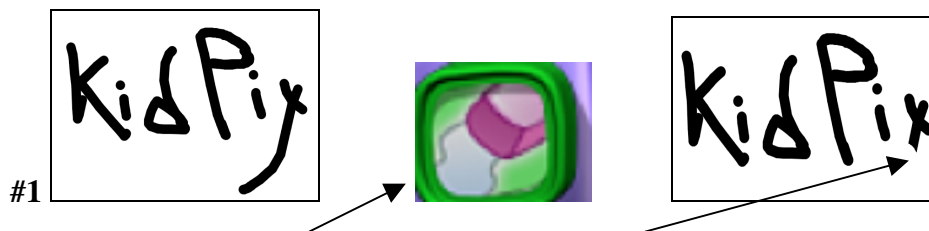

2. **Click** on the Water Cleaner to erase your drawing.

3. **Click** on the color palette and select a different color.

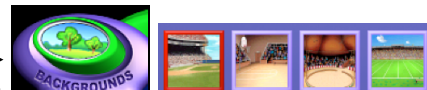

4. **Now** try a different line thickness, style and color. Duplicate slide #1.

5. **Use** the eraser tool to clean –up your text.

6. **Click** on Backgrounds in the Library Tools.

7. **Select** a background and **drag** onto the Paint Zone window.

8. **Now select** the **Undo Guy** to erase your background.
(You can only step-back one time)

9. **Create** a New slide using the tools you have just learned.

10. **Click** the Save icon.  **Select** a location for your slide.
