Regulation Special Education and Related Services for Eligible Students

The purpose of the district’s special education program regulations is to address program areas where state and federal regulations require specific local regulations or permit local discretionary choices.

The state regulations governing implementation of special education services pursuant to the Individuals with Disabilities Education Improvement Act (IDEA) of 2004 are addressed in Chapter 392-172A WAC. These procedures do not address all of the requirements established in the regulations. District personnel who are not familiar with the regulations need to contact an administrator in the district student services department if there are questions regarding special education. These procedures describe how the district implements its special education program.

Free Appropriate Public Education (FAPE)

The district will apply annually for federal Part B and state special education funding to assist in the provision of special education and any necessary related services. This funding is in addition to students’ basic education funding and state special education funding.

The superintendent, in consultation with building staff, shall annually determine whether to use Early Intervening Services (EIS) funding for students who have not been identified as needing special education or related services, but who need additional academic and behavioral support to succeed in a general education environment.

The district shall annually report to the Office of Superintendent of Public Instruction (OSPI) the number of students receiving EIS; and the number of students who received EIS and subsequently received special education and related services under Part B of IDEA during the preceding two-year period.

Services to eligible special education students, age three to 21, will be provided without charge to the student. This does not include incidental fees that are normally charged to all students. Special education services will include preschool, elementary and secondary education and are provided in conformance with the student’s Individual Education Program (IEP).

The district provides a continuum of services for students, regardless of the funding source. Where the district is unable to provide all or part of the special education or necessary related services, it will make arrangements through contracts with other public or non-public sources, inter-district agreements or interagency coordination.

Students Covered by Public or Private Insurance

The district may use Medicaid or other public insurance benefits programs in which a student participates to provide or pay for services required to provide a FAPE, as permitted by the public insurance program. However, the district shall not:

1. Require parents to sign up for or enroll in public benefits or insurance programs in order for their student to receive FAPE under Part B of the IDEA;

2. Require parents to incur an out-of-pocket expense such as the payment of a deductible or co-pay amount incurred in filing a claim;
3. Use a parent or student’s benefits under a public insurance program if that use would:

   a) Decrease available lifetime coverage or any other insured benefit;

   b) Result in the family paying for services required after school hours that would otherwise be covered by the public insurance program;

   c) Increase premiums or result in discontinuation of insurance; or

   d) Risk loss of eligibility for home and community-based waivers, based on aggregate health-related expenditures

The district may access a parent’s private insurance proceeds to provide FAPE to an eligible student only if the parent provides informed consent to the district (per WAC 392-172A-01040). Whenever the district proposes to access the parent’s private insurance proceeds, the district shall:

1. Obtain parent consent in accordance with Chapter 392-172A-01040 WAC each time the district wishes to access benefits for a new procedure; and

2. Inform the parents that their refusal to permit the district to access their insurance does not relieve the district of its responsibility to ensure that all required services are provided at no cost to the parents.

Before first accessing a parent’s or student’s public benefits, for the first time and annually after the first notification, the district will provide written notification using the prior written notice provisions under WAC 392-172A-0510(3) that includes:

1. A statement of the parental consent provisions;

2. A statement of the “no cost” provisions;

3. A statement that the parents may withdraw their consent to disclose personally identifiable information to the agency responsible for administering the state’s public benefits or insurance, and

4. A statement that a parent’s withdrawal or refusal to consent does not relieve the school district of its responsibility to ensure that all required services are provided at no cost to the parents.

After providing the required notification, the district will obtain consent pursuant to WAC 392-172A-05225 from the parent allowing the district to disclose information from the student’s educational records to the agency responsible for administering the state’s public benefits or insurance programs. The consent will specify:

1. The personally identifiable information that may be disclosed, such as records or information about the services that may be provided to the student;

2. The purpose of the disclosure;
3. The agency to which the disclosure will be made; and

4. That the parent understands and agrees that the public agency may access the parent or student’s public benefits or insurance to pay for services under the act.

To avoid financial cost to parents who would otherwise consent to use private insurance or public benefits if the parent would incur a cost such as a deductible or co-pay, the district may use its Part B funds to pay the cost the parents would incur.

The District is responsible for providing the required notices and requests for consent to parents under this section.

**Parent Participation in Meetings**

The district encourages parental involvement and sharing of information between district and parents to support the provision of appropriate services to its students. As used in these procedures, the term “parent” includes those listed in WAC 392-172A-0225.

Parents (and as appropriate, students) will be provided the opportunity to participate in any meetings with respect to the identification, evaluation, educational placement and provision of a (FAPE).

When a meeting is scheduled parents will be:

1. Notified of the meeting early enough that they will have an opportunity to attend; and

2. Notified of the purpose, time and location of the meeting and who will be in attendance.

When the meeting is to address the IEP or placement:

1. The parent will be notified that the district or the parent may invite others who have knowledge or special expertise of the student; and

2. The meetings shall be scheduled at a mutually agreeable time and place.

The district shall take whatever action is necessary to ensure that the parent understands the proceedings of the IEP team meeting, including arranging for an interpreter for parents with deafness or whose native language is other than English.

The District will keep documentation of the information provided and the methods used to notify the parents of the meeting. The district may proceed with the IEP or placement meeting if the district is not able to convince the parent to attend. In this case, the district will document its attempts to arrange the meeting. This documentation will include records of telephone calls and the results, copies of correspondence sent to the parent and/or other means used to contact the parent.

This documentation will be kept in the student’s special education file.
If the parent cannot attend the IEP or placement meeting but wishes to participate, the district will arrange for other means to participate. This can include individual or conference phone calls, video or other means of conferencing.

A meeting does not include informal or unscheduled conversations involving district personnel; conversations on issues such as teaching methodology, lesson plans, coordination of service provisions; or preparatory activities that district personnel engage in to develop a proposal or a response to a parent proposal to be discussed at a later meeting.

Identification and Referral (Child find)

A. Identification

The purpose of child find is to locate, evaluate and identify children with suspected disabilities in need of special education services including those who are not currently receiving special education and related services and who may be eligible for those services.

Activities are to reach:

1. Children residing in the school district boundaries including preschool-aged children;
2. Children attending approved, nonprofit private elementary and secondary schools located within the district boundaries.
3. Highly mobile children (such as homeless, foster care and migrant children);
4. Children who have a disability and may need special education services even though they are advancing from grade to grade; and
5. Children at home or home schooled.

The district will consult with parents and representatives of approved, nonprofit private school students to ensure its child find activities are comparable in approved, nonprofit private schools located within district boundaries. These consultations will occur annually in person.

The district reaches students who may be eligible for special education services through:

1. Notification to parents of child find activities in its annual informational packet;
2. Notification to parents district-wide through local papers or other media;
3. Information regarding child find on the district’s Web site;
4. Notification to private schools located in the district’s boundaries;
5. District informational mailings;

6. Posted notices regarding screening and referral in schools and public locations;

7. Notification and coordination with the designated Part C lead agencies;

8. Early childhood screenings conducted by the district;

9. Coordination with other public and private agencies and practitioners;

10. Written information provided to district staff on referral procedures;

11. Training teachers and administrators on referral/evaluation/identification procedures; and

12. Review of student behavior, discipline and absentee information and information gathered from district-wide assessment activities.

When district staff have concerns that a student may have a suspected disability which could result in eligibility for special education services, they will notify the school psychologist or student referral team.

The district special education Child Find team conducts early childhood screenings for three to five years of age. These occur monthly at a designated school site. Screenings are scheduled by calling 253-571-2610. If there are concerns about a child’s development and they are birth to three years of age a referral can be initiated for a Tacoma School District Family Resource Coordinator (FRC) to complete an intake. Birth to three year old early intervention referrals can be initiated by calling 253-571-2636.

The screening process involves the following:

1. Parents are asked to provide information regarding their child’s developmental and health history;

2. Children are screened in the areas of hearing, vision, cognitive, communication, physical (fine and gross motor), social-emotional and adaptive development. Parents receive a copy of the screening results at the end of screening appointment. If a child passed all areas of the screening no further screening or assessment is initiated and the parents are provided information about Tacoma preschool options. If the child passed the screening but skill development was near the cut off scores a follow up screening may be recommended and parents are provided with information about Tacoma preschool options. If the screening results, observation and/or parent input indicate the need for further assessment an evaluation appointment is scheduled.

B. Referral

A student, whether or not enrolled in school, may be referred for a special education evaluation by parents, district staff or other persons knowledgeable about the student. Each building principal will designate a person responsible for ensuring that district staff understands the referral process. Referrals are required to be in writing unless the person referring is unable to write. A person who makes a
referral orally should be asked to either make the referral in writing or go to the main office of the building for assistance in making the referral.

When a referral is made, the district must act within a 25 school-day timeline to make a decision about whether or not the student will receive an evaluation for eligibility for special education services.

All certificated employees will document referrals immediately upon a referral being made to or by them. All other staff receiving a referral from another person shall notify the principal and/or special education building team. The special education team: (a) records the referral; (b) provides written notice of the referral to the parent; and (c) advises the school psychologist to collect and review district data and information provided by the parent to determine whether evaluation is warranted.

During the referral period the special education District staff will collect and review existing information from all sources, including parents. Examples may include:

1. Child’s history, including developmental milestones;
2. Report cards and progress reports;
3. Individual teacher’s or other provider’s information regarding the child including observations;
4. Assessment data; Medical information, if provided;
5. Other information that may be relevant to assist in determining whether the child should be evaluated.

If the review of data occurs at a meeting, the parent will be invited. The District staff provides written notice to the parents of the decision regarding evaluation, whether or not the parents attend the meeting.

Recommendations regarding evaluation are forwarded to the student services department.

After the District staff reviews the request for evaluation and supporting data and does not suspect that the child has a disability, the district may deny the request. In this case written notice, including the reason for the denial and the information used as the basis for the denial, must be given to the parent.

If the determination is that the child should be evaluated, the reviewers will include information about the recommended areas of evaluation, including the need for further medical evaluation of the student. This information will assist the district in providing parents prior written notice and will assist the district in selecting appropriate evaluation group members. The District staff is responsible for notifying parents of the results using prior written notice. When the determination is that the child will be evaluated, parent consent for evaluation and consent for release of appropriate records will be sent with the notice.

District staff will seek parental consent to conduct the evaluation. The school district is not required to obtain consent from the biological parent if:
1. The student is a ward of the state and does not reside with a parent;

2. The parent cannot be located, or their rights have been terminated; or

3. Consent for an evaluation is given by an individual appointed to represent the student.

When the parent provides consent, the district shall select an evaluation group. The evaluation group is to complete the evaluation within 35 school days after the district’s receipt of parent consent, unless:

1. The parents and district agree in writing to extending the timeline;

2. The parent fails or refuses to make the student available for the evaluation; or

3. The student enrolls in another school district after the evaluation is begun but before completion and the parent and new district have an agreement for completion of the evaluation.

If a parent does not provide written, informed consent for the evaluation, notify the special services department. District staff will make a determination as to whether it wishes to use mediation to seek agreement to evaluate or file a due process hearing to override the parent’s refusal to consent. The district may not use mediation or due process to override a parent’s refusal to consent to an evaluation if the student is homeschooled or is unilaterally placed in a private school. If the parent does not provide written informed consent and the district does not use mediation or due process, the school psychologist will provide the parent with prior written notice informing the parent that the district cannot proceed with the evaluation to determine eligibility and is not responsible for providing special education and related services without an initial evaluation to determine eligibility.

Evaluation of Students moving from Part C to Part B and Participation in Transition Planning Conferences:

The district will participate in transition planning conferences, arranged by the local lead agency as designee of the Part C lead agency for each student who may be eligible for preschool services. Transition plans will be designed to promote uninterrupted provision of appropriate services to the child.

1. The Early Childhood Special Education Coordinator will serve as the point of contact with the family resource coordinator for timely execution of transition planning conferences that are arranged at least 90 days before the students’ third birthday by the designee of the Part C agency;

2. The District will follow the procedures for obtaining consent and conducting an initial evaluation, if it determines that the student will be evaluated to determine eligibility for Part B services

3. The District will follow the procedures for timelines and evaluation requirements, except that the evaluation must be completed in enough time to develop an IEP by the date of the student’s third birthday.
Evaluation Requirements

The purpose of the evaluation is to collect information about a student’s functional, developmental and academic skills and achievements from a variety of sources, to determine whether a student qualifies for special education and related services, and to develop an IEP. This includes information provided by the parent. All information gathered in this process is reviewed by the IEP team or other group of qualified professionals.

The evaluation must be an individual assessment designed to determine:

1. Whether the student is eligible for special education and any necessary related services; and,

2. The nature and extent of special education and related services needed by the student, including information related to enabling the child to be involved in and progress in the general education curriculum.

The district’s special education department shall select the members of the evaluation group. Members selected must be knowledgeable about the student and the areas of suspected disabilities. Qualifications of a group member include having the appropriate professional license or certification and may include outside practitioners when necessary. When assessing for specific learning disabilities, the parent and a group of qualified professionals must be part of the group. If the student requires a medical evaluation in order to determine eligibility, the district will coordinate with the parents to arrange for the evaluation at district expense or through the use of public or private insurance if the parent consents to allow the district to use the insurance.

There are many legal requirements for conducting evaluations. Evaluation procedures or materials must be free of racial, cultural or sexual/gender bias and they must be used for the purpose for which they are valid and reliable. Tests must be appropriate for the student’s age and stage of developmental level. Tests should be administered in the native language of the student or conducted in the mode of communication most familiar to the student. If it appears to be clearly not feasible to conduct a procedure or test in the mode of communication most frequently used by the student, the IEP team will contact a special education administrator to develop an individualized strategy for valid evaluation of the student’s skills. The inclusion of parents in this collaboration is desirable and strongly encouraged.

Specific areas to be included in the evaluation are determined by the Evaluation Team and other qualified professionals, as appropriate, as part of a review of existing data concerning the student. The evaluation does not rely on one source or procedure as the sole criterion for determination and should include:

1. Review of existing data, including corresponding response to intervention (RTI) documentation;

2. Relevant functional and developmental information;

3. Information from parents;

4. Information from other providers;
5. Information related to enabling access to and progress within the general education curriculum and assisting in determining whether there is a disability and the content of the IEP;

6. Current classroom-based evaluations, using criterion-referenced and curriculum-based methods, anecdotal records and observations;

7. Teacher and related service providers’ observations; and

8. Testing and other evaluation materials, which may include medical or other evaluations when necessary.

All current evaluation data as well as data previously reviewed by the team must be considered. Professional members of the evaluation group need to be familiar with qualifying disability definitions and criteria in federal and state rules.

This review of existing data may be in the form of a meeting of IEP team members, or may be conducted without a meeting. It includes data provided by parents, data gathered in the general education classroom or from state and district level assessments. The data may provide information about the student’s physical condition, social or cultural background and adaptive behavior.

When additional assessments are necessary, the group members have the responsibility of selecting, administering, interpreting and making judgments about evaluation methods and results, and ensuring that the tests and assessments are administered by qualified personnel in accordance with the instructions of the test producer. The gathering of additional data in combination with existing data must be sufficiently comprehensive to address all areas of the suspected disability and any special education needs, whether linked to the disability category or not. If the IEP team determines that no additional data are needed, the IEP team will notify the student’s parent of that determination and the reasons for it, and inform them of their right to request additional assessments. The district will complete the evaluation using existing data.

Parents and district staff are encouraged to work towards consensus, but the school district has the ultimate responsibility to determine whether the student has a disability or not. The school district will provide the parent with prior written notice of the eligibility decision, as well as a copy of the evaluation report. If the parent disagrees with the eligibility decision they will be informed of their dispute resolution options described in the procedural safeguards.

Specific Learning Disability (SLD)
The district continues to use the severe discrepancy approach for identifying students with a SLD.

Evaluation of Transfer Students
If a student transfers into the school district while an evaluation process is pending from the other district, the school psychologist is responsible for determining the status of evaluations conducted to date and making a determination as to whether the evaluation can be completed within the 35 school day timeline from the date the parent provided consent. If the determination is that additional time will be needed, the school psychologist will notify the parent and obtain the parent’s agreement to establish a new timeline.

A. Eligibility
The evaluation group and the parent will determine whether or not the student is a special education student.

1. A student is not eligible if the determinant factor is lack of appropriate instruction in reading or math, based upon the state’s grade level expectations or limited English proficiency.

2. Eligibility may be determined by documented professional judgment when:
   
a) Properly validated tests are unavailable; or
   
b) Corroborating evidence indicates that results were influenced due to measuring a disability.

The parent will be provided with a copy of the evaluation report and the documentation of determination of eligibility.

Parents will also be provided with prior written notice of the eligibility decision within ten school days of the decision. The special education case manager is responsible for sending the notice.

Students remain eligible for special education services until one of three events occur:

1. The student is determined through a reevaluation to no longer be eligible for special education;

2. The student has met the district’s high school graduation requirements;

3. The student has reached age 21. A special education student whose 21st birthday occurs after August 31, shall continue to be eligible for special education and any necessary related services for the remainder of the school year; or

4. The student no longer receives special education services based upon a parent’s written revocation of services.

When a special education student is expected to graduate prior to age 21, or when graduation is part of the transition plan, the IEP team will document a student’s progress towards achieving course credits towards graduation on the transition portion of the IEP. The district will provide prior written notice to parents and adult students that the student is expected to graduate and will no longer be eligible for special education services. The district will also provide the parents and student with a summary of academic achievement and functional performance and recommendations to assist the student with postsecondary goals.

The district will follow the Graduation Requirements outlined in Policies and Regulation 2410 and 2410R for the Tacoma Public Schools.
B. Evaluation Report

Each person conducting an assessment of the student will specify the procedures and instruments used and their results and the significance of findings related to the student’s instructional program, including a specification of the factors interfering with performance and the special education and related services needed.

The evaluation group will determine who is most appropriate to develop the evaluation report reflecting the evaluation information. This will be completed before the conclusion of the evaluation period and will, at a minimum:

1. Identify the disability which requires special education and related services, if a disability exists;
2. Discuss assessments and review data supporting conclusions regarding eligibility;
3. Include the additional information required for the specific learning disability eligibility category;
4. Describe how the disability or disabilities affect the student’s involvement and progress in the general curriculum;
5. Make recommendations to the IEP team with respect to special education and related services needed, materials or equipment, instructional and curricular practices, student management strategies, the need for extended school year services beyond 180 school days and location of services;
6. Include other information, as determined through the evaluation process and parent input;
7. Include the additional information required for the specific learning disability eligibility category;
8. Provide any necessary professional judgments and the facts or reasons in support of the judgments; and
9. Be signed and dated by the evaluation group members certifying their agreement. Any group member who disagrees with the conclusions shall prepare a statement presenting the conclusion is responsible for notifying parents of the date, time and location of evaluation meetings by following the procedures in the parent participation section for inviting parents to meetings. Contacts may be made by phone, letter or email.

C. Reevaluations

A reevaluation of a student receiving special education or related services is conducted if academic achievement and functional performance has improved to warrant a reevaluation, if the IEP team suspects that the student may no longer be a student with a disability or if the child’s parent or teacher request a reevaluation. A reevaluation does not occur more than once per year, unless parent and school agree otherwise. A reevaluation must occur at least once every three years, unless parent and school staff agrees that a reevaluation is unnecessary. An agreement that an evaluation is unnecessary shall
be confirmed in writing to the parent. The school psychologist will schedule a review of this determination and notify the special education department.

Students who turn six who met the eligibility requirements for the disability category of “Developmentally Delayed” (DD) under the criteria for ages three to six years need not be reevaluated at age six under the criteria for six to nine years until three years after their initial evaluation was completed.

Students who were previously eligible under the category “Developmentally Delayed” must be reevaluated before age nine to determine eligibility within another category.

As part of any reevaluation, the IEP team members and other professionals the district determines appropriate will review existing data that includes:

1. Evaluations and information provided by the parents;
2. Current classroom-based assessment, local or state assessments and classroom based observations; and
3. Observations by other teachers and related services providers data.

Based on this review the team will determine whether any additional data is necessary to determine:

1. Whether the student continues to be eligible for special education and any necessary related services;
2. The present levels of performance and educational needs; and
3. Whether any additions or modifications to the student’s program are needed. This review can occur with or without a meeting or through individual review. If the IEP team members and any other persons reviewing the data determine that no further testing is necessary, the district will notify the parents of this determination, using written prior notice and will inform parents that they have the right to request assessments if they disagree with the determination that additional testing is not necessary. Parent consent is not required if the reevaluation does not require additional testing:

   a) If additional testing is needed, the evaluation case manager will request written parental consent for reevaluation and provide prior written notice identifying the areas of assessment;

   b) If the parents do not return the signed consent form, the district shall send another letter explaining the need for reevaluation and parent consent and will enclose another consent form and a copy of the prior written notice. In addition, the district will document its reasonable attempts to obtain consent such as telephone calls, emails, personal contact with other efforts to obtain consent;

   c) If the parents do not respond to the request for consent, and the district has documented its reasonable attempts to obtain consent, the district can proceed with the reevaluation; and
d) If the parents refuse to consent to the reevaluation, the evaluation group will notify the district student services department so that the district can determine whether it will seek mediation in order to obtain consent or request a due process hearing to ask an administrative judge to override the parent’s refusal to consent.

After the reevaluation is completed, the district will both invite parents to the eligibility meeting and will provide prior written notice after the meeting of the results of reevaluation to parents in their primary language, indicating one or more of the following:

1. Whether the student continues to be eligible and in need of special education;
2. Present levels of performance and educational needs of the student; and
3. Whether any additions or modifications to the special education and related services are needed to enable the student to meet IEP annual goals and to participate, as appropriate, in the general curriculum.

This notice will occur within ten school days of the eligibility decision. The building special education department is responsible for sending the notice.

**D. Reevaluation and Graduation**

No reevaluation is required when special education eligibility terminates due to graduation from high school with a regular diploma or due to reaching the end of the school year during which the student turned 21. Instead, the district will provide prior written notice to the student and the parent within one month before the student’s anticipated last day of school and the IEP team will provide the student with a summary of academic achievement and functional performance including recommendations on how to assist the student in meeting post-secondary goals.

**Independent Educational Evaluations (IEE)**

Parents of students eligible for special education, students referred for special education and determined to not be eligible or students determined not to need an evaluation have a right to obtain an IEE at public expense, each time the district conducts an evaluation of the student.

When parents request an IEE the district must decide within 15 calendar days whether or not it agrees to provide it. Any parent request for an independent evaluation should be immediately referred to the district special education department. A special education administrator shall review the request and determine whether or not the request is warranted. If the district agrees to provide an IEE, arrangements will be made promptly. If the district denies the request to pay for an IEE, it must file for a due process hearing within 15 calendar days of the parent’s request. The district may request mediation as an option after filing the due process hearing. If the parents withdraw their request for an IEE the due process hearing can be dismissed.

When a parent requests an IEE, the district must provide parents a list of district criteria and evaluators. If the school district initiates a hearing and a decision is made that the district’s evaluation is appropriate, the parent still has the right to an IEE but not at public expense. A parent is only entitled
to one IEE at public expense each time the district conducts an evaluation with which the parent disagrees.

If the parent obtains an IEE at either public or private expense, any results of the IEE must be considered by the district if providing FAPE. The IEE may also be presented as evidence at a hearing regarding the student.

The following criteria are established for the selection of an individual to conduct an IEE at public expense. These criteria are established in order to identify the knowledge, experience and qualifications of individuals selected to conduct the evaluations. Any individual selected to conduct either a district evaluation or an IEE must be:

1. Licensed, credentialed or otherwise qualified within the state of Washington or state of residence/practice to perform an evaluation in the specific professional discipline for which an independent evaluation is sought;
2. Knowledgeable and experienced in evaluating children with similar disabilities;
3. Geographically located within the state of Washington; and
4. Available to the district at a maximum fee which does not exceed by more than 25% the prevailing average for similar evaluations within the state of Washington.

Exceptions to the criteria will be granted only when it can be shown that the unique circumstances of the child or the disability:

1. Make it impossible to identify anyone within the state of Washington who holds the appropriate credentials or experience necessary to conduct the evaluation; or
2. Require a specialized evaluator whose fee exceeds the prevailing average by more than 25%; or
3. Include factors which would warrant an exception in order to obtain an appropriate evaluation.

**Individualized Education Programs (IEP)**

**A. IEP Development**

The IEP is the written statement reflecting the implementation of instructional programs and other services for special education students based on the evaluation and student needs.

An IEP must be in effect before initiation of special education services. The IEP must be developed within 30 calendar days after the student’s initial determination of eligibility for special services. IEPs must be updated annually, or revised more frequently if needed to adjust the program and services.

Parent consent is required before the initial provision of special education services. If a parent refuses to consent to the provision of special education services, the district may not use mediation or due process to override a parent’s refusal. When a parent refuses to provide consent a district special
education representative will notify the parent that the district does not have a FAPE obligation to the
student. The notification will be documented in the student’s file.

The district will maintain a copy of the current IEP which is accessible to all staff members responsible
for providing education, other services or implementation of the IEP. All staff members will be
informed of their responsibilities for its implementation. This includes not only teachers and other
service providers, but also bus drivers, playground and lunchroom supervisors, nursing staff and others
who may be responsible for the proper implementation. The building principal is responsible for
ensuring that staff members are knowledgeable about their responsibilities.

IEPs will be implemented without undue delay following IEP meetings, regardless of the payment
source for special education and or related services.

Parents are members of the IEP team and shall have the opportunity to fully participate. The district
will make sure that the parents understand the proceedings; including arranging for an interpreter for
parents who are deaf or whose native language is other than English. The district will also ensure that
meeting locations are accessible. Building principals or IEP team case managers are responsible for
coordinating interpreters and making arrangements for the meeting location.

The district will provide parents/guardians with a copy of the district’s Isolation and Restraint policy
(Policy 2163) when the student’s IEP is created.

The IEP team includes:

1. The parents of the student;

2. Not less than one general education teacher (or preschool teacher) of the student if the student
is, or will be, participating in the general education environment;

3. Not less than one special education teacher, or if appropriate, not less than one special education
provider of the student;

4. A representative of the district, who is qualified to provide or supervise the provision of
Special Education and related services, is knowledgeable about general education curriculum,
and is knowledgeable about the availability of district resources;

5. An individual who can interpret the instructional implications of the evaluation results;

6. Any other individuals who have knowledge or special expertise about the student. These
individuals may be invited by both the district and the parents, at the discretion of the person
making the invitation;

7. The student, when appropriate, or when required;

8. Students must be invited when the purpose of the meeting includes discussion of transition
needs or services;

9. If another agency is or may be responsible for payment or provision of transition services, an
agency representative will be invited, with the parent’s consent. If the agency representative cannot
attend the meeting, district personnel shall keep the representative informed of the meeting and obtain agency information that will assist in the service provision; and

10. Parents will be notified of the participation of the Part C service coordinator or other designated representatives of the Part C system as specified by the state lead educational agency for Part C at the initial IEP meeting for a child previously served under Part C of IDEA.

The parent and district must agree in writing before any of the above team members are excused from all or part of a meeting. If a team member’s area of the IEP is being discussed or modified, then the parent and district must consent to their excusal; and that specific team member must provide advance written input for their part of the IEP prior to the meeting.

Existing team members may fill more than one of these roles if they meet the criteria for the role.

Sometimes parents do not attend IEP meetings. There will also be times the parents do not agree with the IEP as proposed, and despite attempts to reach agreement on IEP content, the team does not reach agreement. If a parent attends the IEP meeting and agreement is not reached on the IEP, the team shall determine whether another IEP meeting should be scheduled as soon as mutually possible, or whether there is enough information to complete the IEP. When the decision is made that the IEP will be implemented the district must send prior written notice of the decisions reached to the parent, including the date the IEP will be implemented.

When the parents do not attend the IEP meeting, despite the district’s efforts to ensure participation, or if the team does not reach agreement, it is the district’s obligation to offer an appropriate educational program:

1. Have IEP members present sign the IEP (or document participation if any member is unwilling to sign);

2. Send a copy to the parent, and provide the parent prior written notice that the district intends to implement the IEP; and

3. Forward the documentation of actual or attempted contacts to the student services department for processing when parents do not attend the meeting.

When making changes to an IEP after the annual IEP meeting for a school year, the parent and the district may agree not to convene an IEP meeting for the purpose of making changes. The parent and the district must complete and sign a written document indicating the changes and inform IEP team members and appropriate individuals of the changes.

B. IEP Preparation and Content:

IEP teams will consider the recommendations in the most recent evaluation to develop the IEP. In developing the IEP, the team should consider:

1. The strengths of the student including the academic, developmental and functional needs of the student and the concerns of the parents for enhancing the education of their child;
2. Whether a behavior plan, including positive supports and possible aversive interventions, should be considered;

3. Whether the student with limited English proficiency has language needs;

4. Whether Braille instruction is appropriate for a student who is blind or visually impaired;

5. Whether a student has other language and communication needs; and

6. Whether assistive technology devices or services are needed.

IEP content includes:

1. The student’s present levels of academic and functional performance with a description of how the disability(ies) affect the student’s involvement and progress in the general curriculum or preschool activities;

2. Measurable academic and functional annual goals for the student (including benchmarks or short term objectives if the student is participating in alternate assessments) that will meet the student’s needs resulting from the disability(ies) to enable involvement and progress in the general curriculum or in preschool activities, and will meet the student’s other educational needs;

3. A statement of special education services, any necessary related services, and supplementary aids and services based on peer-reviewed research to the extent practicable to be provided to the student and program modifications or supports for personnel so that the student may advance towards annual goals, progress in the general curriculum and be educated and participate with other special education students and non-disabled students and participate in extracurricular and other nonacademic activities;

4. A statement of the extent, if any, that the student will not participate with non-disabled students in general education classroom, extra-curricular and nonacademic activities;

5. A statement of any individual appropriate accommodations in the administration of state or district-wide assessments of student achievement that are needed to measure academic achievement and functional performance of the child on state assessments. If the team determines that the student will not participate in a particular assessment, the IEP will address why the student cannot participate in the regular assessment(s) and why the particular alternative assessment is appropriate for the child;

6. The date for the beginning of services and the anticipated frequency, location and duration of services and modifications;

7. A statement of how the student’s progress toward goals will be measured, how the student’s parents will be regularly informed of their child’s progress towards the annual goals and whether the progress is sufficient to enable the student to achieve the goal by the end of the year. Measurement of the student’s progress will be based on data collected as designated on the IEP. The individual responsible for implementing the goal is responsible for maintaining the data used to measure progress. Information to the parents can be provided at the same time the district issues progress reports or report cards or other agreed times as identified in the IEP.
8. The projected beginning date of services and the anticipated frequency, location and duration of services and modifications;

9. With an IEP that is in effect when the child turns 16, or sooner if the IEP team determines it is appropriate, a statement of needed transition services and any interagency responsibilities or needed linkages. The transition component must include appropriate measurable postsecondary goals based on age appropriate transition and assessments related to training, education, employment and independent living skills where appropriate; and the transition services (including course of study) needed to assist the child in reaching those goals;

10. Emergency Response Protocols, if applicable. If the parent and the school district determine that a student requires advanced educational planning, the parent and the district may develop emergency response protocols to be used in the case of emergencies that pose an imminent likelihood of serious harm. Emergency response protocols, if developed, must be incorporated into a student’s IEP. Emergency response protocols shall not be used as a substitute for the systematic use of a behavioral intervention plan that is designed to change, replace, modify, or eliminate a targeted behavior. Emergency response protocols are subject to the conditions and limitations as follows:

   (a) The student’s parent provides consent, in advance, to the emergency response protocols to be adopted;

   (b) The emergency response protocols specify:

      (i) The emergency conditions under which isolation, restraint, or restraint devices, if any, may be used;

      (ii) The type of isolation, restraint, and/or restraint devices, if any, may be used;

      (iii) The staff members or contracted positions permitted to use isolation, restraint, or restraint devices with the student, updated annually, and identify any required training associated with the use of isolation, restraint, or restraint devices for each staff member or contracted position;

      (iv) Any other special precautions that must be taken.

   (c) Any use of isolation, restraint, and/or restraint device must be discontinued as soon as the likelihood of serious harm has dissipated.

   (d) Any staff member or other adults using isolation, restraint, or a restraint device must be trained and certified by a qualified provider in the use of isolation, restraint, or a restraint device, regardless of whether the use of isolation, restraint, or a restraint device is included in the student’s emergency response protocol.

11. The procedures by which parents/guardians will be notified in the use of isolation or restraint or a restraint device on their student.

12. A statement regarding transfer of rights at the age of majority. The special education case manager will provide prior written notice to the student one year prior to student turning 18 years of age; and
13. Extended school year (ESY) services. The consideration for ESY services is a team decision, based on information provided in the evaluation report and based on the individual needs of a student. ESY services are not limited by categories of disability, or limited by type amount or duration of the services. If the need for ESY services is not addressed in the IEP and ESY services may be appropriate for the student, the IEP team will meet by April 15 to address the need for ESY.

Factors for the team to consider when determining the need for ESY may include, but are not limited to:

1) Evidence of regression or recoupment time based on documented evidence; or

2) A documented determination based on the professional judgment of the IEP team including consideration of the nature and severity of the student’s disability, the rate of progress and emerging skills.

Transfer Students

Students who transfer from one district to another within the state continue to be eligible for special education and any necessary related services. When an eligible student transfers into the district, the building principal will notify the special education department. Building special education staff in consultation with parents will review the student’s IEP to ensure the district provides services comparable to those in the previous IEP until the district adopts the previous IEP or develops, adopts and implements a new IEP.

When a student who was identified as eligible for special education transfers from out of state into the district, building special education staff will review the evaluation, eligibility documentation and IEP to determine whether or not the student meets state eligibility criteria. If the student meets the state eligibility criteria, the district will follow the procedures described in the previous paragraph to provide comparable services until the district develops an IEP for the student. If the student needs to be evaluated to determine eligibility in this state, the Student Review Team leader/designee will notify the parents, obtain consent and evaluate the student for eligibility within 35 school days of the receipt of the parent’s consent. The district, in consultation with the parents, will continue to provide special education services comparable to the services on the student’s IEP, pending the results of the evaluation.

The district must take reasonable steps to promptly obtain records, including IEP supporting documents and any other records related to special education or related services from the previous school.

A. Placement

No student may receive special education and related services without being determined eligible for services, and thus the evaluation process and IEP development precedes the determination of the special education placement. When a student has been evaluated and the evaluation team and parent have determined student eligibility and the need for special education and related services, programming decisions must occur. These decisions are made on the basis of information generated through the evaluation and IEP processes. The actual program is considered within the context of least
restrictive environment (LRE) and the continuum of placement alternatives (reviewed below). When
determining initial eligibility for special education, including determination of the appropriate
placement, the parent or adult student must provide written consent for services before the student
receives special education services. If the parents do not consent to the provision of special education
and related services, the district will not provide special education services to the student. The district
will notify the parents that the student is eligible for services and that the district is willing to provide
the services when the parent provides written consent. The notification will also inform parents that
the district has no FAPE obligation to the student when parents refuse to provide consent.

When program decisions are addressed by the IEP team, proper consideration must be given to the
LRE. Within the educational setting, the student should be placed, whenever possible:

1. In the school the disabled student would normally attend; and,

2. with non-disabled students in the general educational setting to the maximum extent possible.

Special classes, separate schools or removal of students with disabilities from the general education
environment occurs only when the nature or severity of the disability is such that education in the
general education classroom with use of supplementary aids and services cannot be satisfactorily
achieved.

If the IEP team believes that the student will not be successful within the general education classroom,
the team will consider:

1. The educational benefits of full-time placement in a regular classroom;

2. The non-academic benefits of such a placement;

3. The effect the student will have on the teacher and other students in the regular classroom; and

4. The costs of placing the student in the regular classroom.

The degree to which the student is to be integrated into the general classroom setting is dependent upon
the identified needs of the student. This placement is to occur unless the nature of the needs are so
severe that this cannot be satisfactorily achieved, even with supplementary aids and services. If the
placement is in another building, the appropriate educational placement will be as close to the student's
home as reasonably possible.

Within the nonacademic setting, students will be provided nonacademic and extracurricular activities
with non-disabled students. These nonacademic settings include athletics, transportation, health
services, recreational activities and clubs. Limits on nonparticipation or conditions of participation
must be designated in the IEP.

The district will also make opportunities available for students eligible for special education to
participate with non-disabled students in the district’s art, music, industrial arts, computer, consumer
classes, home economics classes, vocational education and career technical education classes.

Within the district, a continuum of alternative placement options exists spanning within a class,
resource room, and self-contained, home-bound and out-of-district provisions. Placement options
include, but are not limited to, general education, general education with pull out support by itinerant service provider, resource room, and self-contained classroom. These options are intended to address the individual needs of students and they are considered according to the following process:

The placement of each student with a disability will be determined annually, or sooner if appropriate, by the IEP team.

The appropriateness of placement options will be based upon various decisions including:

1. Data-based judgments in IEP development;

2. Judgments (data-based) in determining LRE;

3. The reasonable probability of the placement option(s) assisting the student to attain annual goals and objectives and the quality of services needed; and

4. The consideration of potentially harmful effects upon the student or on the quality of services needed.

Placement options along the continuum must include alternative placement options identified in the definition of special education and make provisions for supplementary services such as resource room or itinerant instruction to be provided in concert with the general education placement.

B. Students Unilaterally Enrolled in Private Schools by Parents

The district shall conduct an annual count of the number of private elementary and secondary school students eligible for special education who are unilaterally enrolled by their parents in a private school located within district boundaries. The student services administration shall have timely and meaningful consultation with appropriate representatives of private schools and representatives of parents of private school students and make determinations about who will receive services and what services will be provided. The purpose of the child count is to determine the proportionate amount that the district must spend on providing special education and related services, including transportation, to private elementary or secondary school students in the next fiscal year.

The district is required to spend a proportionate amount of federal special education Part B and Section 619 funds to provide special education and related services to private elementary and secondary school students. In order to determine which students will receive services, what services will be provided, how and where the services will be provided, and how services provided will be evaluated, the district shall consult with appropriate representatives and parents of private school students. The district shall make the final decision with respect to services to be provided to eligible private school students. The Student Services Assistant Director will notify each approved private school or preschool operating in the district seeking recommendations of persons to serve as representatives of special education private school students in consultations with the district. An initial meeting will be called by the district to establish a work plan and schedule with the private school representatives to discuss how to identify students, which students will receive services, what services will be provided, how and where services will be provided and how services will be evaluated.

The IEP team at the child’s neighborhood school or a mutually agreed upon alternate school location, in conjunction with student services administration, shall develop the service plan for the child. 

A
private school student has no individual entitlement to any service or amount of service (s) he would have received if enrolled in a public school to receive FAPE. However, for each private school student receiving special education or related services, the district shall initiate and conduct meetings to develop, review and revise a services plan describing the special education and related services that the district will provide. The services plan must: (1) meet IEP content requirements as appropriate; and (2) be developed, reviewed, implemented and revised annually consistent with the requirements for IEP review. The district shall make every effort to include a representative from the private school at each meeting. If the private school representative is not able to attend, the district shall use other methods, including individual or conference telephone calls, to assure the representative’s participation.

Private school students may receive a different amount of services than special education students in public schools. However, the services provided to special education private school students will be provided by personnel meeting the same standards as personnel providing the services in the district.

Services to students in private schools not subject to sectarian control or influence including private sectarian schools may be provided on-site. District personnel may be made available to private schools only to the extent necessary to provide the services required, if those services are not normally provided by the private school. Services shall not include payment of nonsectarian private school teachers’ or other employees’ salaries, except for services performed outside regular private school hours and under public supervision and control.

Equipment and/or supplies may be placed on private school premises for the period of time necessary for the services plan program, but the district shall retain and exercise title and administrative control of the equipment/supplies. The district shall keep records and make an accounting assuring that said equipment/supplies are used solely for the services plan program. Said equipment/supplies shall be removed if necessary to avoid its/their use for other purposes or if no longer needed for the services plan program. No district funds shall be used for repairs, minor remodeling or construction of private school facilities.

The district shall provide services to students in private schools in a manner that: (1) maintains physical and administrative separation between the private and public school programs; and (2) does not benefit the private school at public expense.

Procedural Safeguards

A. Consent

The district will obtain informed, written parental consent before:

1. Conducting an initial evaluation;

2. Providing initial special education and related services to a student; and

3. Conducting a reevaluation if the reevaluation includes administration of additional assessments.
Parental consent is not required to review existing data as part of an evaluation or revaluation, or to administer a test or other evaluation that is administered to all students, unless consent is required of all students’ parents.

Informed consent means that the parent or adult student:

1. Has been fully informed of all information that is relevant to the activity for which the district is asking consent, and that the information is provided in his or her native language or other mode of communication;

2. Understands and agrees in writing to the activity for which consent is sought and the consent describes the activity and lists any records which will be released and to whom; and

3. Understands that the granting of consent is voluntary and may be revoked at any time. If consent is revoked, the revocation does not negate an action that has occurred after the consent was given and before the consent was revoked.

The district may not use a parent’s refusal to consent to one service or activity to deny the parent or child any other service, benefit or activity of the district.

If the district is unable to obtain a parent’s consent, the district may use mediation procedures to obtain a parent’s consent or request a due process hearing asking the administrative law judge to override the parent’s refusal to consent to an evaluation or reevaluation. The district may not request a due process hearing to override a parent’s refusal to consent to initial special education services. The district may not request mediation or due process procedures to override a parent’s refusal to consent to an evaluation or reevaluation if the student is homeschooled or enrolled in a private school.

B. Revocation of Consent

Parents may revoke consent for the continued receipt of special education and related services. If parents revoke consent, the staff member receiving the revocation will forward the revocation to the Student Services administration.

Upon receipt of the parent’s written notice of revocation, the district will provide prior written notice for a reasonable time before the district stops providing services. The notice will include information about the effect of revocation and will inform the parent of the date the district will stop providing special education and related services.

Discontinuation of special education and related services in response to the parent’s written revocation will not be in violation of FAPE and eliminates the district’s requirement to convene an IEP meeting or develop an IEP. However, the district does have a continuing Child Find duty, and staff will follow referral procedures if they believe the student should be referred for special education. In addition, parents may request that the district conduct an initial evaluation for eligibility for special education services after they have revoked consent for continued services.

C. Notice of Procedural Safeguards
In addition to protections provided to parents of eligible students, parents also have procedural safeguard protections when a student’s identification, evaluation or placement is at issue. The school district shall provide a copy of procedural safeguards notice to the parents and adult students one time a year and:

1. Upon initial referral or parent request for evaluation;

2. Upon receipt of the parent’s first state complaint and first request for due process hearing in a school year;

3. Upon a disciplinary action that will result in a disciplinary change of placement; and

4. Upon request by the parent.

The procedural safeguard notice used by the district includes a full explanation of all the procedural safeguards relating to independent educational evaluation, prior written notice, parental consent, access to educational records, discipline procedures for students who are subject to placement in an interim alternative educational setting, requirements for unilateral placement by parents of children in private schools at public expense, state complaint procedures, mediation, the child’s placement during pendency of due process proceedings including requirements for disclosure of evidence, due process hearings, civil actions and attorney’s fees. Copies of the district’s special education procedural safeguards are available: from the special education staff at each school building; the district student services department; on the district Web site.

D. Prior Written Notice

Prior written notices are provided to parents when a district makes a decision relating to a student’s identification, evaluation, placement or provision of FAPE. Prior written notices document the decisions made by the IEP teams and evaluation group.

The district will provide prior written notice to the parent whenever the district proposes or refuses to initiate or change the identification, evaluation, educational placement or provision of FAPE to the student.

The prior written notice will include:

1. A statement that the parents of a special education student have procedural safeguard protections and if a copy of the procedural safeguards do not accompany the notice, a statement that describes how a copy of the statement of procedural safeguards may be obtained;

2. A description of the action proposed or refused by the district;

3. An explanation of why the district proposes or refuses to take the action and a description of other options that the district considered and the reasons why the options were rejected;

4. A description of any other factors which are relevant to the district’s proposal or refusal;

5. A description of each evaluation procedure, test, record or report the district used as a basis for the proposal or refusal; and
6. A description of any evaluation procedures the district proposes to conduct and sources for parents to contact to obtain assistance in understanding the procedural safeguards provision of this chapter.

Prior written notice and the notice of procedural safeguards must be provided in the native language of the parent or other mode of communication used by the parent unless it is clearly not feasible to do so. If the native language or other mode of communication of the parent is not a written language, the district will take steps to ensure that the notice is translated orally or by other means to the parent. This may involve:

1. Arranging for an interpreter if English is not the native language of the parent or if the parent has a hearing impairment; or

2. Providing notice orally if the written language is not a native language.

The District will document in writing how this information was provided and that the parent understands the content of the notice.

E. Transfer of Educational Rights to an Adult Student

When a student eligible for special education reaches the age of 18, all educational rights under Part B of the IDEA, previously exercised by the parent, transfer to the student, unless the student is determined incapacitated in a guardianship proceeding, or the district has appointed an educational representative for the student. When the student turns 18, the special education case manager will notify the parent and student that the educational rights have transferred to the student and will send any required notices to both the parent and the adult student. The IEP Case Manager will send a prior written notice.

At an IEP meeting occurring one year before the student turns 18, the district will inform the parents and the student that educational rights will transfer to the student and the district will inform the student about those educational rights. This information will be documented on the IEP.

Appointment of an Educational Representative

A student over the age of eighteen is presumed to be capable of making educational decisions and able to provide informed consent unless he or she is determined to be “incapacitated” through a legal guardianship proceeding. If a parent, another interested party, or the district believes that a student over the age of eighteen is unable to provide informed consent or to make educational decisions and the student does not have a legal guardian, the parent or other interested party may ask the district to appoint an educational representative. This determination will only be made if two separate professionals state that they conducted an examination and interviewed the student, and concluded the student is incapable of providing informed consent. The district will inform the student of the decision and appoint either, the spouse, the student’s parents, another adult or a surrogate educational representative to represent the student. The appointment of the educational representative will continue for one year.
The student or other adult may challenge the certification at any time. If a challenge occurs, the district will not rely on the education representative, until the representative is recertified.

Confidentiality and Records Management

The Special Services Office is responsible for maintaining the confidentiality of personally identifiable information pertaining to special education and all other students. The district student services department will maintain, for public inspection, a current list of the names and positions of district employees who have access to personally identifiable information of special education students. The district will provide parent and adult students, upon request, a list of the types and locations of educational records collected, maintained or used by the district.

The district provides instruction annually to employees collecting or using personally identifiable information on the procedures to protect the confidentiality of personally identifiable information. The training will address the protections outlined in WAC-392-172A, state law and federal regulations implementing the Family Educational Rights and Privacy Act, FERPA, (34 CFR Part 99).

Upon request, the parent(s) of a special education student or adult student will be afforded an opportunity to inspect, review and challenge all educational records which shall include, but not be limited to, the identification, evaluation, delivery of educational services and provision of FAPE to the student. The district shall comply with the request promptly and before any meeting regarding an IEP or hearing relating to the identification, evaluation, educational placement of the student or provision of FAPE to the student, including disciplinary proceedings. In any case, the district shall respond no more than 45- calendar days after the date the district received the request. If an educational record includes information on more than one student, the parents (and/or adult student) may only inspect and review information relating to their child. School personnel receiving requests for educational records will immediately forward the request to district special education department.

If parents believe that information in an education record is inaccurate or misleading or violates the privacy or rights of the student, they may request that the district amend the information. Policy and Regulation 3231, Student Records, describes the process and timelines for challenges to and hearings regarding student records.

The district follows the guidelines for records retention outlined in the Secretary of State’s, General Records Retention Schedule and Records Management Manual. The district shall inform parents or adult students when personally identifiable information collected, maintained, or used is no longer needed to provide educational services to the student. The information will be destroyed at the request of the parent(s) or adult student, or will be provided to the parent or adult student upon their request. However, a permanent record of the student’s name, address and phone number, his or her grades, attendance, record, classes attended, grade level completed and year completed will be maintained without time limitation.

Records management is also governed by Policy and Regulation 4040, Public Access to District Records.

A. Surrogate Parents

A surrogate parent is a person appointed by the school district to act on behalf of a student to help
ensure the rights of the student to a FAPE when a parent cannot be identified, the whereabouts of the parent are unknown, or the student is a ward of the state and does not have a foster parent.

The district student services department is responsible for determining the need for appointment of a surrogate parent.

Natural or adoptive parents, foster parents, persons acting in the place of a parent such as stepparents or relatives and persons with legal custody or guardianship are considered parents. Students who are homeless and not living with a parent may need a surrogate parent.

The following is guidance for the district to follow to assist in determining the status of the parent’s rights to make educational decisions:

In cases where the student is in out of home care the district must determine the legal custodial status of the child.

1. Parents who have voluntarily placed their child in state placement still retain legal custody of the child and retain the right to make educational decisions. In this situation the student is not a ward of the state;

2. Parents whose children are placed in group care, pending a determination of “dependency” may still retain rights to make educational decisions unless otherwise ordered by the court;

3. When a disposition order and order of dependency is issued, the state becomes the legal as well as physical custodian of the child. Parents may no longer have the right to make educational decisions during this stage of dependency; and

4. Parents whose parental rights are terminated no longer have the right to make educational decisions on behalf their child.

When a student is placed in foster care the foster parent may act as the parent. When a student is placed in group care, the district will work with the parents, case-worker(s), foster parents and others who have knowledge of the student’s legal status in order to determine the need for appointment of a surrogate.

When selecting a surrogate parent the district will select a person willing to participate in making decisions regarding the student’s educational program, including participation in the identification, evaluation, placement of and provisions of FAPE to the student.

If a student is referred for special education or a special education student transfers into the district who may require a surrogate parent, the district student services department will be notified of the potential need. The student services department will then select a trained individual who can adequately represent the student to ensure that all student rights are observed.

The person selected as a surrogate:

1. Must have no interest that conflicts with the interests of the student he or she represents;

2. Must have knowledge and skills that assure adequate representation of the student; and
3. May not be an employee of a school district and/or other agency which is involved in the education or care of the student. This includes OSPI, DSHS, district employees and group care providers.

The district will at a minimum, review with the surrogate parent procedural safeguards, parent involvement in the special education process, parent education publications and special education regulations. The district will also cooperate with other districts, the ESD or OSPI in training surrogate parents and in establishing a list of persons willing and able to serve as surrogate parents.

B. Mediation

The purpose of mediation is to offer both the parent and the school district an alternative to a formal due process hearing. Mediation is voluntary and requires the consent and agreement of both parties. Mediation cannot be used to deny or delay access by a parent to a due process hearing. Mediation is used to resolve disagreements concerning the identification, evaluation and delivery of educational services or provision of a FAPE to a special education student. Mediation may be terminated by either party at any time during the process.

The primary participants are the parents, school district representatives and mediator. The process is voluntary, confidential and informal. It is a collaborative process, conducted in a non-adversarial manner. Mediation services will be provided by the Office of Superintendent of Public Instruction (OSPI) at no cost to either party.

The district’s student services department is responsible for coordinating requests for mediation. If a parent requests mediation, notify a student services administrator who will respond to the parent and coordinate with OSPI’s contracted agent. Staff members are reminded that discussions that occur during the mediation process are confidential.

One person designated by the district to attend the mediation must have authority to bind the district in any agreement reached through mediation.

Due Process Hearing

Both parents and districts may file due process hearings involving the identification, evaluation, placement or provision of FAPE to a student. IDEA requires that specific information be provided as part of a due process hearing request. The requirements are identified in the notice of procedural safeguards. If parents request information about how to file a due process hearing, the district will provide the parent with a due process hearing request that contains the required information. Due process hearing request forms are available at the district student services department and on the OSPI Special Education and Administrative Resources Web site.

If any staff receives a request for a due process hearing, a copy of the request should be immediately forwarded to the district student services department. If the parent has not filed the request for hearing with OSPI, the district will forward the parent request to OSPI Administrative Resources Section. The district may not delay or deny a parent’s due process hearing request. Parents are entitled to a copy of the notice of procedural safeguards if this is the first due process hearing in a school year. District student services administrators are responsible for providing parents a copy of the procedural safeguards in this situation and documenting that the safeguards were provided to the parent.
When a parent files a due process hearing, the student remains in the placement at the time of the request for hearing unless the parents and district agree to a different placement. See the discipline section below for placements when a disciplinary action is challenged.

When parents file a request for a due process hearing, student services administration will immediately schedule a resolution meeting. The meeting must occur within 15 days after a parent files a due process request with the district and provides a copy of the request to OSPI, or, within seven days if the hearing request involves an expedited hearing regarding discipline. Student services administration will determine the appropriate district staff that will attend the resolution meeting. The district will ensure that one of the district representatives attending the resolution meeting has authority to bind the district in any resolution agreement. The district will not bring district counsel to a resolution meeting unless the parent is bringing an attorney to the meeting.

Any resolution agreement reached will be documented in writing and is binding on the parties. The document will inform the parent of their right to void the agreement within three business days of signing the agreement.

**Discipline**

Students eligible for special education may be disciplined consistent with the disciplinary rules that apply to all students. The district shall determine on a case by case basis whether discipline that is permitted under WAC 392-400 should occur. However, students eligible for special education must not be improperly excluded from school for disciplinary reasons that are related to their disability or related to the district’s failure to implement a student’s IEP. The district shall take steps to ensure that each employee, contractor and other agents of the district responsible for education or care of a student is knowledgeable of special education disciplinary rules.

**A. Removal Up to Ten Days**

Authorized school personnel may order the removal of a special education student from a current placement. The district need not provide services to a student who is removed from the current placement for ten school days or less in any school year, if services are not provided to a student without disabilities.

**B. Removal for More than Ten Days**

Once a student has been removed from placement for a total of ten school days in the same school year, and if the district determines that the removal is not a change of placement, the district must, during subsequent days of removal, provide appropriate services to the extent necessary to enable the student to participate in the general curriculum, although in another setting, and to progress toward meeting the goals set out in the student’s IEP. The IEP team in consultation with one or more of the student’s teachers shall make the determination of such necessary services.

**C. Change in Placement**
A change of placement occurs when a special education student is:

1. Removed from his or her current placement for more than ten consecutive school days in a school year; or

2. Subjected to a series of removals in a school year and which constitute a pattern of removal because:

   1) the series of removals total more than ten school days in a year;
   
   2) the student behavior is substantially similar to the student’s behavior in previous incidents that resulted in the series of removals; and
   
   3) of factors such as the length of each removal, the total amount of time a student is removed, and the proximity of the removals to one another.

Whether a pattern of removal constitutes a change in placement is determined on a case-by-case basis by the building principal and student services administrator and is subject to review through due process and judicial proceedings. Building administrators will notify the Student Services Department when a special education student is suspended for greater than ten (10) days.

D. Manifestation Determination

Within ten school days after the date on which the district makes a decision to change the student’s placement, the district shall schedule a manifestation determination meeting to determine the relationship between the student’s disability and the behavior subject to the disciplinary action.

The review of the relationship between a student’s disability and the behavior subject to the disciplinary action shall occur at a meeting that includes the parent and relevant members of the IEP team who are selected by the parent and the district. The team shall review all relevant information in the student’s file, including the IEP, teacher observations and information provided by the parent to determine:

1. If the conduct was caused by or had a direct and substantial relationship to the child’s disability; or

2. If the conduct in question was the direct result of the district’s failure to implement the student’s IEP.

If the team determines that the behavior resulted from any of the above, the behavior must be considered a manifestation of the student’s disability.

The district will take immediate action to remedy the deficiencies, and will:

1. Conduct a functional behavioral assessment (unless already completed) and implement a behavioral intervention plan; or
2. Review the existing behavioral intervention plan and modify it to address the behavior; and

3. Return the child to the placement from which he or she was removed from unless the parents and the district agree a change is necessary as part of the behavioral intervention plan, or unless the infraction involves drugs, weapons or bodily injury.

**Special Circumstances**

School personnel may order a change in placement to an appropriate interim alternative educational setting for the same amount of time that a student without disabilities would be subject to discipline, but for not more than 45 school days, if a special education student:

1. Possesses a “dangerous weapon” or carries such a weapon to school or to a school function;

2. Knowingly possesses or uses “illegal drugs” while at school or a school function; or

3. Sells or solicits the sale of a “controlled substance” while at school or a school function; or

4. Inflicts serious bodily injury upon another person while at school or a school function. Serious bodily injury means a substantial risk of death, extreme physical pain, protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

Any interim alternative educational setting in which the student is placed is determined by the student’s IEP team and will:

1. Be selected so as to enable the student to participate in the general curriculum, although in another setting and to progress toward meeting the goals set out in the student’s IEP; and

2. Include services and modifications designed to address the behavior or to prevent the behavior from recurring.

The district may ask an administrative law judge, or seek injunctive relief through a court having jurisdiction of the parties, to order a change in placement to an appropriate interim alternative educational setting for not more than 45 school days or seek injunctive relief through a court having jurisdiction of the parties when the district believes that maintaining the student’s current placement is substantially likely to result in injury to the student or others. If the student’s IEP team believes that the student may not be maintained in his or her current placement, the IEP team should work with the Assistant Director.

Unless the parent and the district agree otherwise, if a parent requests a hearing to challenge either the manifestation determination or the interim alternative educational setting, the student must remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the 45 school day period, whichever occurs first.
Basis of Knowledge

A student who has not been determined eligible for special education services may assert the protections if the district had knowledge that the student was eligible for special education before the behavior that precipitated disciplinary action occurred.

The district is deemed to have knowledge if:

1. The parent expressed concern in writing (or orally if the parent does not know how to write or has a disability the prevents a written statement) to district supervisory or administrative personnel or a teacher that the student is in need of special education and related services;

2. The parent requested that the student be evaluated for special education services; or

3. The teacher or other school personnel has expressed specific concern about a pattern of behavior demonstrated by the student to the director of the special education department or to other supervisory staff.

If instituting disciplinary action that would exceed ten days and the principal believes that one or more of these events applies to the student, he or she will notify the special education department to determine the appropriate disciplinary procedures.

The district is not deemed to have knowledge if, as a result of receiving the information described above, the district either:

1. Conducted a special education evaluation of the student and determined that the student was not eligible for services; or

2. The parent of the student has not allowed an evaluation of the child or has refused services.

If the district is not deemed to have knowledge that a student is a special education student, the student may be disciplined as a student without disabilities who engages in comparable behaviors. The district shall conduct an evaluation, which is requested during the time period such a student is subjected to disciplinary measures, in an expedited manner. Until the evaluation is completed, such a student shall remain in the educational placement determined by the district, which can include suspension or expulsion without educational services.

Notwithstanding the foregoing, the district may report a crime committed by a special education student to appropriate authorities. In the event of such a report, the district shall ensure that copies of the student’s special education and disciplinary records are transmitted for consideration by the appropriate authorities to whom the crime is reported; to the extent transmission of the records is permitted by the Family Educational Rights and Privacy Act (FERPA).

Staff Qualifications

All employees of the district funded in whole or part with state or federal excess special education funds will meet the standards established by the State Board of Education (SBE) and defined in WAC 392-172-A-02090.
All employees will hold such credentials, certificates or permits as are now or hereafter required by the SBE for the particular position of employment and shall meet such supplemental standards established by the district.

All special education teachers providing, designing, supervising, evaluating or monitoring the provision of special education shall possess “substantial professional training.” This shall be shown by the issuance of an appropriate special education endorsement on an individual teaching certificate issued by the superintendent of public instruction.

In the event a special education teacher does not have a certificate endorsed in special education, a district may apply for a pre-endorsement waiver through the special education section of the OSPI. To qualify for the special education pre-endorsement waiver, the teacher must meet SBE criteria.

If the district must temporarily assign a classroom teacher without a special education endorsement to a special education position, the district’s Human Resources personnel will document in writing that:

1. The district is unable to recruit a teacher with the proper endorsement who is qualified for the position;

2. The need for a teacher with such an endorsement could not have been reasonably anticipated and the recruitment of such a classroom teacher at the time of assignment was not reasonably practical; and/or

3. The reassignment of another teacher within the district would be unreasonably disruptive to the current assignments of other classroom teachers or would have an adverse effect on the educational program of the students assigned to the other teacher.

If one or more of these criteria can be documented, the district determines that a teacher has the competencies to be an effective special education teacher, and the teacher has completed six-semester hours or nine quarter hours of course work which are applicable to the special education endorsement, the district can assign the teacher to special education in compliance with the process for making out-of-endorsement assignments and reporting them to the state.

Classified staff will present evidence of skills and knowledge necessary to meet the needs of students with disabilities. The district will provide training to classified staff to meet the state recommended core competencies.

**Personnel Development**

In order to provide a staff development program to improve the quality of instructional programs the following procedures will be employed:

1. Special education concerns will be identified through a staff needs assessment completed by administrators, teachers, educational staff associates, program assistants, parents and volunteers;

2. Training will be provided annually to all personnel who may be providing isolation or restraint;
3. In-service training schedules will be developed based upon the results of the district assessment and in support of needs identified;

4. Training activities will be conducted for regular general and special education staff, staff of other agencies and organizations and private school staff providing services for special education students; and

5. Training for classified staff in the state recommended core competencies will occur through the Classified Professional Development department.

**Public Participation**

Any application and any required policies, procedures, evaluations, plans and reports are readily available to parents and other members of the public through the district special education department and the office of the superintendent. A notice regarding the availability of such documents will be placed on the district’s Web site and in the district’s newsletter.
