Hello Students! This week we are doing something a little different. For this art challenge, you are creating a color wheel with whatever objects you can find around the house! Have fun with this one. It will be interesting to see if you can find at least ONE thing for each color. You will need to remember what the 3 primary and 3 secondary colors are. If you don’t remember, you can check out my link: [https://youtu.be/06-YwDUU86A](https://youtu.be/06-YwDUU86A)

To complete this assignment, follow the steps listed below...

**You Try**

**Directions:**

1. Look around your house/yard for small objects of different colors.
2. Make sure you find at least 3 objects for each of the primary and secondary colors.
3. Arrange the objects into a circular shape like the image above.
4. Make sure the objects are in the correct order. Arrange the primary colors in a triangular shape and then place the correct secondary colors in between the primaries.
5. Once all of your objects are arranged, take a photo of your Found Object Color Wheel.

**Show me what you know (Proof of learning)**

How to turn in your work: take a photo of your work. Email the photo to me: jdavis6@tacoma.k12.wa.us OR upload the images to TEAMS - if you want to share your work with your classmates, post it in the comments section of Teams 😊

**Self-Assessment**

1. Do you have the 3 primary and 3 secondary colors represented?
2. What was the easiest color to find? What was your biggest challenge?

**Extra Learning Opportunities:**

Watch this SHORT video about making art from everyday objects! [https://youtu.be/DCqWn8fKRAQ](https://youtu.be/DCqWn8fKRAQ)

For an extra challenge, create your own “ready-made” sculpture out of ordinary objects, photograph it, and send it to me!
