June 1, 2020

Dear Families,

- New district packets came out last week. Thanks to those of you that picked them. Continue to work from the packets this week. If you need additional materials to work on or have questions, please let me know. I appreciate all that you are doing to support your child at home!

- If you were not able to get the packets last week, please pick them up at First Creek on Tuesday or Thursday between 10:00 and 12:00. Ask for the following packets:
  1. **Modified K-5 Elementary Packet** - This packet contains several activities for reading, writing, and math. Some of the reading activities have several parts which can be divided up to be used over multiple days.
  2. **Preschool Packet** – This packet has many ideas for activities and games that you can do at home with your child.
  3. **Sight Word Packet** – You will have to ask for the “Bergman Packet.” There are many worksheets that will last for multiple days.

- **iReady** - Continue working on reading and math lessons if you have an account.

- **Mathematics Consumable Workbooks** – Continue working in the workbook. There are instructions at the bottom of each page on how to use it with your child.

I appreciate all of you that are responding to my phone calls/emails to let me know how things are going. I have also really enjoyed “seeing” many of you through video conferencing! I will continue to email or call every week, but please feel free to email anytime at jbergma@tacoma.k12.wa.us.
