Date: April 25, 2008

To: Board of Directors

From: Ron Hack, Chief Financial Officer

Subject: March 2008 Unaudited Financial Report

This report provides a brief summary of the general fund financial operations through March 31, 2008. Enrollment information includes the official state count through the month of March 2008 as well and the projected annual average full-time equivalent (FTE) students for the year.

Table 1 displays a comparison of summary financial data for March 2007 and 2008.

Table 1

General Fund Comparison	March 2007	March 2008	Variance Higher/(lower)
Beginning Fund Balance	\$ 28,051,767	\$ 34,719,787	\$ 6,668,020
Revenue	157,532,481	166,323,687	8,791,206

Page 2

REVENUES

- General fund revenues and other financing sources as of March 2008 were \$166,332,754; this was \$8,779,299 or 5.6% more than this time last year. Revenues overall have increased due to higher funding allocations and reimbursement rates even though the projected annual average enrollment is down 461 student FTE from last year.

Highlights:

- **Local tax** revenue consists of tax receipts from the approved local maintenance and operations levy. Collections through the month of March increased \$1,176,489 from this time last year. This reflects an increase in the levy base (i.e., certain State and Federal revenues) used to calculate the 2008 levy versus the 2007 levy; thereby, increasing the actual revenue from year to year.
- **Local non-tax** revenue consists of investment earnings, student food service receipts, sales from vocational programs and several other small sources. Revenue in this category decreased \$699,483 from this time last year. Interest rates have been declining over the last several months resulting in a decrease of \$917,843 in investment earnings compared to last year. This was partially offset by an increase of \$176,280 in facility rental revenue. The remaining revenue decrease is due to smaller variances in several other revenue accounts.
- **State general purpose** revenue comes from two sources – Apportionment and Local Effort Assistance (LEA). Revenue in this category increased \$3,096,063 from this time last year. The Basic Education Allocation (BEA) rate increased from \$4,649.30 to \$4,882.67 or \$233.37 per student FTE; this resulted in an increase of \$2,490,039 compared to last year. In addition, apportionment for Full Day Kindergarten and a one-time technology allocation resulted in increases of \$626,817 and \$296,000, respectively. These variances resulted in an overall increase in apportionment revenue of \$3,412,856. The increase in apportionment was partially offset by a decrease of \$316,793 in LEA funding.

Memo to Board of Directors

Subject: March 2008 Unaudited Financial Report

April 25, 2008

Page 3

- **State special purpose** revenue consists of funding for the following programs: Special Education, Learning Assistance Program (LAP), Remann Hall, Initiative 728 Student Achievement, Food Services, Transportation, Promoting Academic Success (PAS), Special & Pilot Programs, as well as various other small instructional programs.

Revenue in this category increased \$4,150,955 from this time last year. Of this variance, \$1,092,639 was due to an increase of \$75 per FTE for Initiative 728 Student Achievement. The earlier timing of allotment payments for Transitional Bilingual has resulted in an increase of \$948,471. A change in the funding formula for Special Education resulted in an increase of \$1,213,655 compared to last year. Smaller variances in the Certification Bonus and Flexible Education Math & Science programs resulted in an increase of \$511,336. In addition, Transportation revenue increased \$365,943 due to additional funding approved by the legislature based on a study of actual miles driven.

- **Federal special purpose** revenue consists of funding for the following programs: Special Education Federal Flow Through, Perkins Vocational Education, Title 1 - Disadvantaged, School Improvement, Reading First, Head Start, Limited English Proficiency, Indian Education, federal reimbursement for free and reduced student meals, as well as several other instructional programs. Revenues in this category are on a reimbursement basis. Therefore, the fluctuation in this category is often due to the timing of reporting expenditures and the processing of reimbursements by the funding agency. Program managers are given expenditure authority only for the approved amount of the grant awards; so variances should not have a negative impact on the district's basic education budget.

Revenue in this category increased \$1,162,825 from this time last year. Food Services revenue from the free and reduced meal program increased \$400,477 due to increased reimbursement rates and an increase of 239 breakfasts and 110 lunch meals served daily as compared to last year's average daily meals served. United States Department of Agriculture (USDA) Commodities have also increased \$271,923 compared to last year. Perkins Vocational Education, Limited English Proficiency and Indian Education all increased for total of \$274,247. In addition, Title I - Disadvantage, School Improvement and Head Start programs increased \$422,290, \$295,128 and \$135,438, respectively. This was partially offset by decreases in Special Education Federal Flow Through and Reading First revenue of \$391,705 and \$266,321, respectively.

EXPENDITURES

- General fund expenditures through March were \$177,687,851; this was \$14,377,732 or 8.8% more than this time last year.

Highlights:

- **Certificated salaries** consist of compensation including, but not limited to, regular salaries, substitutes, extended contracts, extra work for extra pay and training for employees holding an educational certificate, (e.g., teachers, principals, librarians, etc.). Expenditures in this category increased \$4,352,815 from this time last year due to the following: 19.4 more staff FTE than last year at this time, longevity increments given to all groups, the state cost of living allocation (COLA) of 3.7%, state funded catch-up of .63% to close the inequity gap among school districts across the state, and the additional 1.0% negotiated salary increase provided to all teachers per the Tacoma Education Association (TEA) agreement.
- **Classified salaries** consist of compensation costs for employees who do not hold an educational certificate (e.g., secretarial, technical, custodial, etc.) including, but not limited to, regular salaries, staff development, training and extra work for extra pay. Expenditures in this category increased \$1,274,156 from this time last year due to the following: the state cost of living allocation (COLA) of 3.7% for all classified staff, longevity increments and up to an additional 1.0% salary increase for certain groups provided per negotiated agreements. The Maintenance and Security unions ratified new contracts in January 2008 and the Custodial union agreement was ratified in March 2008.

Memo to Board of Directors

Subject: March 2008 Unaudited Financial Report

April 25, 2008

Page 5

- **Employee benefits** consist of expenditures for the districts portion of employee benefits (e.g., retirement, social security, health insurance, etc.). This category increases or decreases in proportion to the number of staff, salaries and changes in benefit rates. Expenditures in this category increased \$2,688,095 from this time last year. This variance was due to increases in retirement and medical insurance rates for all employee groups as well as an increase of \$4,500 in the maximum taxable earnings subject to the Social Security tax. Expenditures for retirement plans increased \$1,351,486. The state medical insurance allocation increased from \$8,910 to \$9,204 per year or \$24.50 per FTE per month for an increase of \$789,741. In addition, Social Security increased \$396,303 when compared to this time last year.
- **Supplies and materials** consist of expenditures for supplies, instructional materials, and equipment costing less than \$1,000. Expenditures in this category increased \$3,925,178 from this time last year. Approximately \$2.6 million of the increase was due to the purchase of Read Well and Reading Street instructional materials for the K-5 literacy curriculum adoption being implemented this year. Approximately \$1 million of the increase was due to a one time expenditure to purchase document cameras and digital projectors as part of the Tech Equity program; this program is working to increase access to technology by classroom teachers across the district. In addition, rising food prices have resulted in an increase of \$398,533 compared to this time last year.
- **Contractual services** expenditures consist of payments for services rendered to the district under expressed or implied contracts, with the exception of travel. Expenditures in this category increased \$1,595,640 from this time last year. The student transportation contract contains a Consumer Price Index (CPI) inflation factor; this resulted in a 4.26% increase over the 2006-07 year rates. The rate increase along with the timing of student transportation invoices, having been invoiced through February this year as compared to December last year, resulted in an increase of \$688,125. In addition, the installation of diesel oxidation catalysts on all buses operated by the district associated with the Clean School Bus grant resulted in increased repair costs of \$186,124. Software maintenance agreements and natural gas costs have also increased \$321,984 and \$170,222, respectively, compared to last year. The remaining increase of \$229,185 is due to smaller variances in several programs.
- **Capital outlay** expenditures consist of payments for items costing more than \$1,000 each that are not consumable by nature. Expenditures in this category increased \$378,965 from this time last year. The purchase of video and audio systems and global positioning systems (GPS) for all school buses operated by the district resulted in an increase of \$490,603. This was partially offset by smaller variances in several other programs.

FUND BALANCE

Fund balance is the excess of assets of a governmental unit over its liabilities (i.e., beginning fund balance plus revenue, less expenditures and transfers, equals ending fund balance). The fund balance is made up of restricted and unrestricted reserves. Funds that are set aside or designated for a specific purpose are placed in reserves per the Board's Debt and Fiscal Management Policy 6015 and generally accepted accounting principles (GAAP). The Debt and Fiscal Management Policy specifies fund balance to be at least 4.5% of general fund revenues less other financing sources, and we are currently well within those limits.

These reserves are structured to facilitate the prudent fiscal operation of the district. They should remain at the designated levels unless there is substantial change in the district's operational requirements. The reserves are frequently reviewed in relation to board policies and GAAP requirements.

Memo to Board of Directors
Subject: March 2008 Unaudited Financial Report
April 25, 2008
Page 7

Table 4 shows a comparison of fund balance as of the end of March 2007 and 2008. The fund balance fluctuates with both the receipt of revenues and the flow of expenditures. When local taxes are collected this balance is high. The yearly cycle of revenues and expenditures is considered when developing both projections for the current year and the budget for the upcoming year.

Table 4

Reserve Description	Fund Balance Comparison by Year					Variance higher/(lower)
	March 2007	Percent of Total	March 2008	Percent of Total		
Reserve for Encumbrances	\$ 2,313,411	10.38%	\$ 4,061,538	17.38%	\$ 1,748,127

ENROLLMENT

State funding for school districts is based on the annual average full-time equivalent (FTE) students enrolled in the district. FTE is calculated based on the number of classroom hours of instruction received.

The budgeted monthly FTE for the year was determined by using the annual budgeted average FTE of 26,866 and applying monthly historical trends.

Table 5 shows monthly budgeted, projected enrollment counts and actual counts through March 2008. The projected annual average FTE is currently 27,471; this is 411 FTE more than the budgeted average.

Memo to Board of Directors

Adjusted Average		27,060	27,471	411
Fresh Start (FYI)		170	154	(16)

* Actual data through March 2008

Every student enrolled is converted to a full-time equivalent (FTE) based on the number of instructional hours. A full-time equivalent student for grades 4-12 is 900 hours (i.e., 5 hours per day x 180 days) and grades 1-3 is 720 hours (i.e., 4 hours per day x 180 days). Kindergarten students are reported for half days only at 360 hours (i.e., 2 hours per day x 180 days).

Kindergarten students and students who participate for only part of the year or part of each day are calculated as a portion of an FTE. Any district may choose to serve students more hours per day or per year than the state definition of full-time equivalent. However, those students who attend classes more hours per day will not generate more than one FTE for funding purposes.

Memo to Board of Directors

Subject: March 2008 Unaudited Financial Report

April 25, 2008

Page 9

Student enrollment is typically highest in October, but for funding purposes, monthly enrollment is averaged for the year. The graph in **Table 6** shows the budget and actual monthly enrollment through March with projected enrollment through May and the budgeted and projected average enrollment for the year. Although this graph only lists September through May, the figures include projected annual average counts through June 2008. This is done to include corrections to prior monthly reports and enrollment that falls outside of the traditional school year (e.g., Running Start, Summer School, etc.) in the annual average.

Table 6

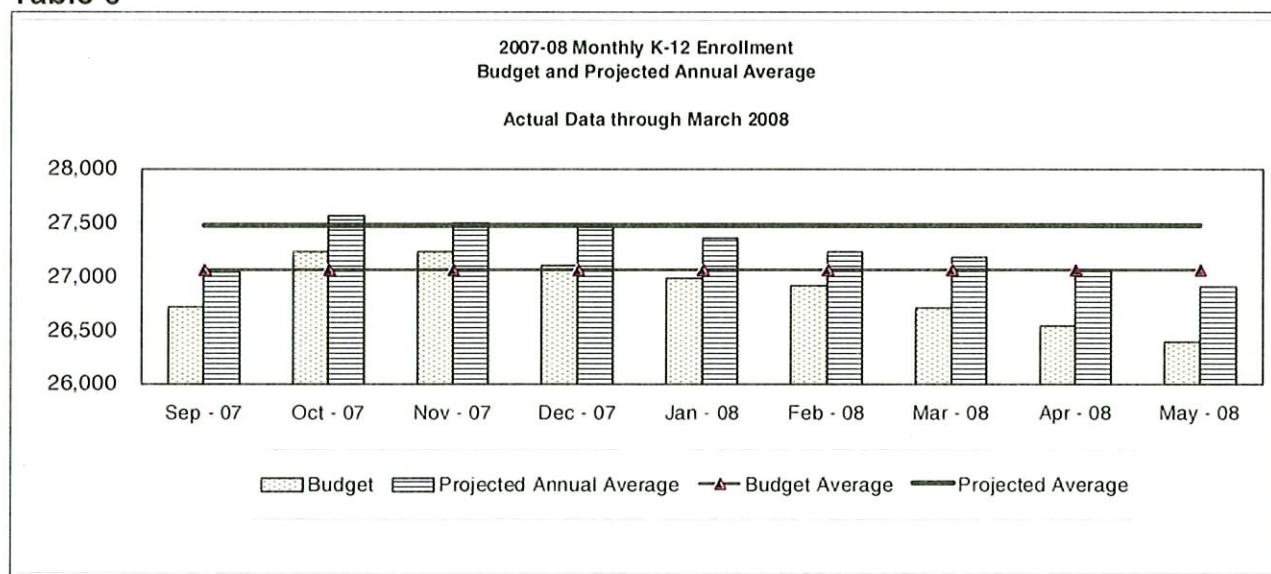

Table 7 displays the variances between actual and projected annual average FTE by individual grade level for 2006-07 and 2007-08, and the variance between projected and budgeted average FTE for 2007-08.

The projected average for 2007-08 enrollment varies from 2006-07 actual enrollment as follows (**Table 7, Column (D)**):

Elementary schools (grades K-5) decreased by 6 FTE;
Middle schools (grades 6-8) decreased by 230 FTE;
High schools (grades 9-12) decreased by 228 FTE;
Home/Private remained the same;
Summer School decreased by 6 FTE;
Running Start (college level courses) increased by 9 FTE;
Fresh Start decreased by 16 FTE.

Memo to Board of Directors

Subject: March 2008 Unaudited Financial Report

April 25, 2008

Page 10

The combined variances result in an average decreased 461 student FTE from the previous year. Fresh Start numbers are included for information purposes only since they are already included in the grade 12 counts.

Table 7

CONCLUSION

Fiscal operations and performance to budget are being closely monitored. The district administration continually reviews legislation and operations to make improvements for the benefit of the students, employees, and in stewardship of district assets.
