

Computer Programming Classes

@ Mason Middle School

~ Invent. Create. Be inspired. ~

Give your child an opportunity to learn how to create fun programs and games! Coding with Kids classes are updated with **NEW PROJECTS EACH SESSION** so that your student can continue to advance their coding skills. We teach kids real programming skills in a fun and engaging way. Below are the classes available at your school.

GAME DEVELOPMENT / PYTHON I/II

Grades 6-8

Mon, 3:00pm-4:00pm

Jan 14 - Mar 18

no class on Jan 21, Feb 18

8-week session

\$160

Open to students of all experience levels, Python offers a great entry-point to learn a versatile, professional-level programming language. This class teaches everything from basic syntax to more complex concepts, such as object-oriented development. These tools will be used to create a variety of games, like space invaders and tic-tac-toe. Students just starting out with programming will receive an easy introduction to the core concepts with Scratch, an easy-to-use drag-and-drop programming tool.
